

Thank you for your interest in Micro Focus Digital Cybersecurity Summit. Please find the sessions available for viewing listed below. Sessions will be available on Oct 30th for one year on-demand.

Track	Session	Speaker Company	Solution Area
ArcSight	Global protection and awareness through data analytics, threat detection and pattern recognition	Micro Focus	
ArcSight	Distributed correlation and orchestration for the global enterprise through ESM 7.0	Micro Focus	
ArcSight	ArcSight is an open architecture for SecOps	KPN	
ArcSight	Data simplicity: ArcSight Data Platform and Splunk enhance enterprise data via Common Event Format	Dimension Data, Micro Focus	
ArcSight	Preparing for when your organization will be breached: Prioritizing and protecting	Micro Focus	Addressing Threats, Attacks, and Breaches
ArcSight	Effective incident response: Security Orchestration and Automation (SOAR)	Siemplify, Micro Focus	Addressing Threats, Attacks, and Breaches
ArcSight	The hybrid enterprise: Working across on-premises, IaaS, PaaS and SaaS	Micro Focus	Enabling your business through digital transformation
ArcSight	A risk-based security program approach: Security enables digital transformation and compliance	Micro Focus	Enabling your business through digital transformation
Fortify	AppSec at high speed and scale: Agility, integration and automation	Micro Focus	
Fortify	Automate static and dynamic scans, CI/CD integrations and auditing for fast, reliable results	Aaron's, Micro Focus	
Fortify	Using automatic and manual tests for static, dynamic and mobile with Fortify on Demand	Micro Focus	
Fortify	Building an AppSec practice in a fast-moving environment: The power of on-premises and as a service	Verizon, Micro Focus	
Fortify	Preparing for when your organization will be breached: Prioritizing and protecting	Micro Focus	Addressing Threats, Attacks, and Breaches
Fortify	Prioritizing risk relative to mitigating vulnerabilities	Micro Focus	DevSecOps
Fortify	Shifting security left: Bringing security into continuous integration and delivery	Target, Acxiom, Micro Focus	DevSecOps
Fortify	Application security as a service: Start your application security initiative in less than a day	Micro Focus	DevSecOps
Fortify	The hybrid enterprise: Working across on-premises, IaaS, PaaS and SaaS	Micro Focus	Enabling your business through digital transformation

Track	Session	Speaker Company	Solution Area
Identity & Access	Identity powers adaptive security	Micro Focus	
Identity & Access	Deliver strong governance and administration and deliver business value... yes it is possible	Micro Focus	
Identity & Access	Access management: The glue between business value and security	Micro Focus	
Identity & Access	Protecting the crown jewels through strong privilege management	Micro Focus	
Identity & Access	Preparing for when your organization will be breached: Prioritizing and protecting	Micro Focus	Addressing Threats, Attacks, and Breaches
Identity & Access	The hybrid enterprise: Working across on-premises, IaaS, PaaS and SaaS	Micro Focus	Enabling your business through digital transformation
Identity & Access	A risk-based security program approach: Security enables digital transformation and compliance	Micro Focus	Enabling your business through digital transformation
Identity & Access	Moderated session with product leaders discussing regulatory changes, in GDPR and the US	Micro Focus Northern Trust	Risk, Privacy, and Compliance
Identity & Access	Recognition and risk: Ensuring the right level of identity assurance	PwC, Micro Focus	Risk, Privacy, and Compliance
Identity & Access	Cloud-based data privacy and protection: Protecting data and privacy across hybrid IT	Esurance, Micro Focus	Risk, Privacy, and Compliance
Identity & Access	Improving the customer experience by understanding customer relationships	PwC, Micro Focus	Enabling your business through digital transformation
Voltage	Voltage data-centric security innovations to expand protection—in use, motion and at rest	Micro Focus	
Voltage	SecureData Sentry: The fastest way to safely accelerate your migration to cloud workloads	Micro Focus	
Voltage	Turn data protection into ROI while reducing data risks	Teradata, NCR Corp, Micro Focus	
Voltage	Global financial services case study: Driving business value through data management	Principal, Micro Focus	
Voltage	The hybrid enterprise: Working across on-premises, IaaS, PaaS and SaaS	Micro Focus	Enabling your business through digital transformation
Voltage	Improving the customer experience by understanding customer relationships	PwC, Micro Focus	Enabling your business through digital transformation
Voltage	Moderated session with product leaders discussing regulatory changes, in GDPR and the US	Micro Focus, Northern Trust	Risk, Privacy, and Compliance
Voltage	Cloud-based data privacy and protection: Protecting data and privacy across hybrid IT	Esurance, Micro Focus	Risk, Privacy, and Compliance

Track	Session	Speaker Company	Solution Area
ZENworks	Automating IT management processes across device lifecycles with ZENworks: Present and future	Micro Focus	
ZENworks	Managing the device lifecycle with ZENworks	Micro Focus	
ZENworks	Securing your devices and data with ZENworks	Micro Focus	
ZENworks	Simplifying IT processes and increasing user productivity	Trinity Health, Micro Focus	
ZENworks	The hybrid enterprise: Working across on-premises, IaaS, PaaS and SaaS	Micro Focus	Enabling your business through digital transformation
